5. Collaborate online and in real-time for a better bottom line!
  1. Department Meetings, Training, Sales Presentations, Project Management
  2. Reduces Travel, Expenses and Downtime while Increasing Productivity

Audio/Web	Pricing
US Toll & Toll-Free Audio Conferencing	\$0.10 per minute per participant
Web Conferencing	\$0.15 per minute per participant

<p><b>Annotation Tools:</b> Use the annotation tools to “mark up” slides on your presentation to keep participants more engaged in your meeting.</p>	<p><b>Integrated Audio and Web Controls</b> allow you to manage your meeting online. Conference commands include dialing-out to participants, requesting operator assistance, mute/un-mute, lock/unlock conference, roll-call, recording, etc.</p>	<p><b>Reporting:</b> Keep track of who is entering and exiting your Web conference right from your desktop. Receive an email report of online registration information immediately after your meeting including name, company name, phone, email address and time the participant joined and left the meeting.</p>
<p><b>Application Showing</b> allows you to show or share any application on your desktop.</p>	<p><b>Microsoft Office Outlook Integration</b> streamlines the invitation process and enables you to schedule meetings quickly and easily.</p>	<p><b>Hand Raise Feature:</b> Easily manage Q&amp;A with an interactive participant “hand raise” feature. Use this feature for quick “Yes/No” polling during the conference.</p>
<p><b>Chat</b> allows participants and presenters to communicate to each other through the web interface. Chat is also a way to ask questions during a conference.</p>	<p><b>Customize Registration and Record Playback:</b> Customize registration fields to collect specific information from the Web conference participants.</p>	<p><b>Web-Based Invitation Services:</b> Create and send invitations (compatible with most calendaring systems) that automatically populate the chairperson and meeting participant’s calendars.</p>
<p><b>Co-Presenters:</b> Allows you to grant co-presenter status to any participant in the conference who has a valid version of Java. The status enables the participant to gain additional functionality that allows them to control some, but not all of the conference.</p>	<p><b>Record a Meeting</b> Recordings are the next best thing to attending a Web conference session. They provide a great way to keep individuals informed and document what occurred at an event when you can’t be there. You can record part or all of a presentation, including the audio portion, and make the recording available to others to view later at their convenience.</p>	<p><b>Security:</b> Assign optional security pass codes that participants must enter to access a web conference or recordings. All Chairperson and Participant connections to the service are SSL encrypted for security.</p>
<p><b>Conference Manager</b> provides a central location to manage meetings, such as starting and recording conferences, set podcasts feeds, send email invitations, and customize participant registration and web reports.</p>	<p><i>iTunes is a trademark of Apple Computer Inc registered in the US and other countries. Microsoft Windows Outlook and PowerPoint are registered trademarks of Microsoft Corporation in the US and/or other countries. Lotus Notes is a trademark of the Lotus Corporation.</i></p>	
<p><b>Desktop Showing:</b> Show and share visually applications, web pages, files or software to participants in real-time. Meeting attendees can see exactly what you are doing – including your mouse movements and keyboard inputs.</p>		<p><b>For More Information Call Today!</b></p>
